

Culture of Corruption: Obama & His Team of Tax Cheats, Crooks & Cronies

Author—Michelle Malkin

Publisher—Regnery Publishing 8-09

#1 NY Times Best Seller List—3rd Week

Editors Note:

I Have not read it but it is on my Reading List. This is an important read. Facts. We need facts so we can fight back. This book has it all. The Chicago Machine, Acorn and all of the Cronies that continue to back Obama in his quest to Socialize America. Below are comments from reads—2 Best Selling Authors and some great comments, especially this one from a fan that wrote this on Malkin's blog: "I was at the COS (Colorado Springs) Airport Monday to pick up my wife and browsed the gift store to kill time. The book rack had a "Best-seller" section. Guess which book WASN'T there? You'd think they would carry a #1 best-selling book written by an author that lives in the city. I'm sure it was just 'out of stock'." Makes you want to read it all the more to see why they are afraid to have these books on the shelf. One of the New York Times reviewers said Karl Marx is "Back in Vogue" . With so much at stake it is Important for all Citizens to read the truth and educate themselves. You won't get it from the mainstream media.

"Dogged, fiercely independent, and with a brilliant eye for the telling detail, Michelle Malkin has now turned her formidable skills to the bright new dawn of the Obama era, and the ever widening gulf between the hopey-changeey rhetoric and the murkier reality. Her riveting portrait of unsavory cronies parceling out the spoils of government is somewhat at odds with the impression you may have gained from the besotted *Tiger Beat* correspondents of the mainstream media. I will leave it to the reader to decide which view is more persuasive, but let's just say that, if more journalists were like Michelle Malkin, American newspapers might still have a future."

So said Mark Steyn—Author *America Alone*—Which is a Great Read....

"Culture of Corruption, by my good friend and intrepid reporter Michelle Malkin, reveals all the sordid details the Obama Administration would rather you not know—the sleaze, corruption, and self-dealing of the Chicago Machine that lets no 'crisis' go to waste. A powerful and necessary indictment of what 'hope and change' really means."
